## **Antartica**

**Description:** IT services for Real Estate companies, shops and businesses.

Antartica is the project of two Brussels young entrepreneurs. Our aim is to give a concrete application to the most recent technologies in businesses and individuals everyday life, in the field of image projection. In order to do so, we have developed several services in 360°, live videos, community management, virtual reality and 3D drawings fields.

We are working Brussels, and we are currently extending our network to provide our services globally. If you are not yet in our network, contact us as we may already be developing a branch in your country!
